

Slanged project

Table of contents

- I. Brief introduction
- II. Demonstration of the app
 - A. Hangman
 - B. GuessWord
 - C. MatchWord
 - D. List of words
- III. Main choices
 - A. Urban Dictionary
 - B. Python
 - C. Turtle implementation
- IV. How to improve the app

I) Brief introduction

- Goal: learning new vocabulary (Internet slang)
- Means: different games with varying difficulty
- Pros: fun, fast, challenging (and kinda weird)
- Cons: none :^)
- Pun: Slang + Hanged = ? (hung and hanged are both correct! Who knew!)

II) Demonstration

SHOWTIME

III) Main choices

A) Urban Dictionary

TOP DEFINITION

English 

a language that lurks in dark alleys, beats up other languages and rifles through their [pockets](#) for [spare vocabulary](#).

[That word](#) didn't used to be [part](#) of [english](#).

 6309  860

Get a **English** mug for your grandma Helena.

B) Python

- OOP
- Tkinter

III) Main choices

- From Turtle to Turtledupauvre

IV) How to improve the app

- Possibility to use our own database
- QoL improvements (use of keyboard instead of mouse, etc)
- Share scores with friends and see theirs
- Graphical overhaul

Conclusion
